Description

We would like to participate as a partner in projects initiated and submitted by another organization. We are interested in joining either a smaller scale or a larger scale cooperation project building on Creative Europe's priorities. We are particularly interested in projects which focus on music, fine arts, theater, creative industries, cultural education, economy of art, business etc. We want to learn to constantly develop and bring high quality cultural events to people.

We are open to all ideas that suit our profile, and we strongly believe that, thanks to our experience, engagement and placement in one of the most cultural cities in Poland, we would be an ideal partner in a cooperation project. Also, we would like to suggest and present abroad our theatrical and music productions which offer maverick and high quality art events.

Please note that we are open to cooperating with interested organizations beyond Creative Europe, too, so feel free to contact us even if you do not intend to submit an application to this funding programme in 2017.
